KITCHEN CABINETS

It has been estimated by some one that the housewife spends threefifths of her time in the kitchen to provide food for the family. By having one of our Kitchen Cabinets at least one-fifth of that time is saved. Everything is so handy, a place to keep all the necessary things to do baking, besides the Cabinet makes the most dingy kitchen look pleasant and the cook looks pleasant too. Don't fail to see the Cabinets.

Death of James Loch.

James Loch died Friday of consumption at his home, 641 Mulberry street, after a four years' illness.

Deceased was born in Scotland, Jannary 28, 1855, coming to Canada with his father when twelve years of age. In 1878 he was married to Miss Bessie Anderson, and came to Michigan, moving to Owosso sixteen years ago. For fifteen years Mr. Loch was foreman of the bed department at the Estey Mfg. Co.'s plant, being obliged to go south for his health in the winter of 1901, returning two months later, called home by the death of his little son. In January, 1902, he went to New Mexico, where he spent six months.

Mr. Loch leaves a wife and nine children, Mrs. Warren Mack, of Boston, who is spending the summer here, Jessa-The Ann Arbor R. R. Co.'s paving mine, Cecil, Hazel, Violet, Olive, Geraldine, Henry and Walter, and a brother, Henry Loch, of Ontario, and a sister, Mrs. Charles Holman, of this city.

He was a member of the Masons and the Knights of the Maccabees, and Cross walks were ordered built, two at the Congregational church. Rev. C. H. Hanks conducted the funeral obsequies Monday afternoon under the direction of the Masons.

The death of Mr. Loch removes a citizen who was highly respected by a wide circle of friends. His home life, his interest in all that pertained to the good of the community, and his genial friendship marked him as a model citizen. The sympathy of the community is generally extended to the family in their

Not the least of the attractions is the beautiful forest of 60 acres which lies to the north and east of scarcely any improvement to make it a most charming spot for anyone who ad-

mires the beauties of nature. The main building of the Windemere is 18 feet in width by 100 in length, and two stories high. A 12-foot porch and veranda extends the entire length of the building on its west or front side and a similiar one 8 feet in width extends along the east side or rear. An outside stairway connects the lower porch with the veranda above, which affords the means for communication between the lower and upper floors. The rooms on the ground floor average about 10 feet been in poor he both the front and rear porches. The floors of the porch and lower rooms are built of cement.
